LED Intelligent Driver (Constant Voltage)

- Small size and light weight. Adopt SAMSUNG/COVESTRO V0 flame resistant polycarbonate protective housings.
- The design of dismountable end cap allows you to adjust the length of housing depending on your needs.
- Dimming interfaces: DMX512/RDM, Push DIM.
- Dimming range: 0~100%, dimming down to 0.1%.
- Flicker-free with high frequency exemption level in 0~100% dimming process.
- With soft-on and fade-in function, bringing more comfortable visual experiences.
- Supports RDM remote device management protocol.
- High-performance drivers: Effeciency 88%, PF>0.95, THD<8%.
- Comply with the EU's ErP Directive, stand-by power consumption＜0.5W.
- The secure and reliable design for signal isolation.
- Innovative thermal management technology intelligently protects the lifetime the driver.
- Over-heat / Over voltage / Over load / Short circuit protection, recover automatically.
- Suitable for lamp applications of indoor Ⅰ/Ⅱ/Ⅲ types.
- Up to 50000-hour life time.
- 5 year warranty (Rubycon Capacitor).

※ The driver is suitable for connecting resistor current-limiting LED fixture (e.g. LED strip). The inrush current will be dozens of times increased if connecting built-in constant current IC current-limiting LED fixtures,the driver will activate the overloaded protection (hiccups flickering). When you order, please remark controlling the constant current LED fixture (e.g. MR16 lamp, underground light, LED wall washer, constant current LED strip, etc.), then we can prepare the special programs.

Strip length:8mm-9mm

Push DIM Connection Mode

0-100% dimmer
Short press to on/off,long press to dim.

✻ Dimming interface priority: DMX/RDM first , Push DIM next .

Push DIM

Reset switch

- On/off control: Short press.
- Stepless dimming: Long press.
- With every other long press, the brightness level goes to the opposite direction.
- Dimming memory: Go to the brightness level adjusted previously when lights are turned on.

Protective Housing Application Diagram

Tension plate

Remove the protective housing

Push the tension plate down to fix the electric wires.

Push the side plate outwards and remove the tension plate by prying it up with a tool at the same time.

Pull the bottom left and right from the bottom to remove it.

DMX Address Setting

The DMX driver can work with the address editor that complies with standard RDM protocol.
It is recommended to use LTECH's RDM editor (model WiFi-RDM01), which can achieve more functions such as remote browsing and parameter setting. Wiring diagram as below:

Download the App, setting the parameters after well connecting the RDM editor, please check the manual of WiFi-RDM01 for more details.

a: Click"Add", edited the address in corresponding box.
b: Click"ID", get more product details.
c: Click"⚙", enter setting interface.
d: Click"No.", issue the recognizing command.

Attentions

● Products shall be installed by qualified professionals.

● LTECH products are non-waterproof (special models excepted). Please avoid the sun and rain. When installed outdoors, please ensure it is mounted in a water proof enclosure.

● Good heat dissipation will extend the working life of products. Please ensure good ventilation.

● Please check if the working voltage used complies with the parameter requirements of products.

● The diameter of wire used must be able to load the light fixtures you connect and ensure the firm wiring.

● Before you power on products, please make sure all the wiring is correct in case of incorrect connection that causes damage to light fixtures.

● If a fault occurs, please do not attempt to fix products by yourself. If you have any question, please contact your suppliers.

✳ This manual is subject to changes without further notice. Product functions depend on the goods. Please feel free to contact our official distributors if you have any question.

Warranty Agreement

● Warranty periods from the date of delivery : 5 years.

● Free repair or replacement services for quality problems are provided within warranty periods.

Warranty exclusions below:

● Beyond warranty periods.

● Any artificial damage caused by high voltage, overload, or improper operations.

● Products with severe physical damage.

● Damage caused by natural disasters and force majeure.

● Warranty labels and barcodes have been damaged.

● No any contract signed by LTECH.

1. Repair or replacement provided is the only remedy for customers. LTECH is not liable for any incidental or consequential damage unless it is within the law.

2. LTECH has the right to amend or adjust the terms of this warranty, and release in written form shall prevail.
